

all in
for
recovery

A refuge in the foothills.

Out OF THE
Ashes

Breaking the chains of
addiction and homelessness
one person at a time.

all in for recovery

Thanks to our incredible donors and committed staff, Out of the Ashes served hundreds of our neighbors in 2022.

259 men, women and children provided shelter and services

274K meals served

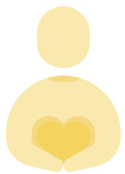

13K recovery counseling sessions conducted

Out of the Ashes is the only place in Western North Carolina for the underserved and uninsured to receive residential recovery services at no cost. One of our alumni declared our program gave him “a life worth living.” ***And so many in our community are in need of that kind of hope.***

Our capacity to heal is forecasted to double in 2023 in our new facility! So we’re counting on the people of “small town friendly” to live up to their name and care for their neighbors. Rutherford and Polk counties *desperately* need a refuge for the homeless, the addicted and the uninsured. We need YOU to go **All In for Recovery** with Out of the Ashes so all who seek it will find a refuge in the foothills and embrace LIFE through recovery and the gospel.

our programs

In addition to recovery services, we build relationships with our participants through recovery, music therapy and sharing the gospel: **our ultimate hope.**

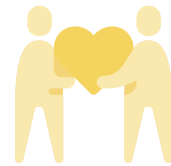

recovery services

The Out of the Ashes recovery program includes wellness of the mind, body and spirit with transportation to detox, consistent recovery meetings and one-on-one counseling.

music therapy

We are the first and only recovery organization in North Carolina to offer a fully-integrated music therapy program. Many of our participants embrace sobriety through writing composition and music production.

counseling + discipleship

Our in-house counseling includes both one-on-one sessions and group sessions with certified life recovery peer support and Bible studies.

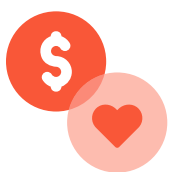

Meet the team! Our staff and board are made up of current Rutherford and Polk county residents who care deeply about recovery and discipleship. **50%** of our staff were once homeless or in recovery themselves, and some have even gone through our program! They're living proof that recovery is alive and well in the foothills.

“Being sober is beautiful, and I’m grateful Out of the Ashes was my vessel to know Jesus Christ. Out of the Ashes has given me hope! Three months ago, I was running 100 miles an hour away from the Lord: homeless, hopeless and struggling to see my purpose. Today, I am a new creation. Now I can celebrate life as the blessing it is! I have a job, self-worth, and I’m on my way to mending relationships I thought I had forever destroyed. — Tabatha”

go all in!

“Small town friendly” is only a reality when we all come together as a community, under our faith, to move mountains – including the mountains of addiction, homelessness and hopelessness. Go **All In for Recovery** with Out of the Ashes by investing in restoring hope and freedom in the foothills.
